2. [REDACTED] of the Budget Office, called to ask when our T/O would be adjusted to reflect the transfer of [REDACTED] to this Office and of [REDACTED] to O/IC. They are both encumbering the same GS-15 slot in O/IC at the present time. I told her that the reallocation of 15 slots in conjunction with the supergrade study should enable us to straighten this out and requested that she continue to carry them both until some action was taken here.
